

# DIGITAL WALLETS

Set up your wallet for quick, easy, encrypted payments.

Adding your debit and credit cards to your digital wallet app makes shopping fast and convenient and protects your personal information, both online and in stores.

## Simple To Set Up

Digital wallet apps come pre-installed on your device. Apple Pay, Google Wallet and Samsung Pay are most common.

## Add Your Card

- 1  Open the wallet app on your device.
- 2  Select **Add a Card** or tap the **+** sign.
- 3  Choose **Debit Card** or **Credit Card**.
- 4  Take a photo of your card information. Verify the details.
- 5  Review and agree to the terms and conditions.
- 6  **Use in-store:** Hold your device near the terminal and authorize the payment when prompted.
-  **Use online:** Select your wallet in the payment options at checkout.

**Note:** The steps will vary depending on which app you are using.
